Hope Beer started out in 2015 when the brewery was founded by four friends with a passion for beer and business. What began as a series of late-night kitchen table discussions is now a state-of-the-art brewery, producing an extensive range of award-winning premium craft beers.

HOPE

— BREWED IN DUBLIN —

Since then Hope has grown to a team of seven, with sales close to €1 million, and exports to Italy, Russia, Netherlands and France.

Why Us

Hope Beer is a range of premium craft beers brewed, canned, bottled and kegged at Howth Junction in North Dublin. In addition to their core range of five beers they also brew two seasonal beers and a number of limited editions throughout the year.

Their range of beers are crafted to be the perfect accompaniment to food. The label of each beer shows the types of food that pair best with the beer allowing customers to fully enjoy the flavour profile of both the beer and food. Each beer has its own distinct name, story and taste experience; Discover our beers. Discover their stories!
