Irish Seaspray products are acclaimed by its clients. It continuously invests in production technology and product safety whilst only sourcing the finest raw materials. Their salmon is sourced from Irish farms along the west coast. Clients can trace the origin of the products through its website using their unique traceability system. The company provide branded as well as private label products.

The company use a combination of an age old tradition of cold-smoking with the latest slicing and packing technology allowing them to produce high quality products.

## Why Us

Irish Seaspray supplies a 100% organic product that is smoked in the country of origin, certified quality standard, kosher, and fully traceable.

The company uses the latest in production technology and has a large processing capacity.
