Bernard and Rosemary Walsh established Walsh Whiskey in 1999, and today, led by Bernard, the company has built a range of international award-winning drinks brands.

With a strong board of industry veterans and a team of full-time executives, together the company has built a highly successful business around a portfolio of superpremium and ultrapremium, triple-distilled Irish whiskeys - The Irishman and Writers' Tears.

Why Us

Walsh Whiskey Distillery is the largest manually-operated whiskey distillery in Ireland.

The team of local distillers produce all three styles of Irish whiskey - pot still, malt and grain - in one still.

Our product range
