Foodservice

Pritchitts is the foodservice division of Lakeland Dairies, a leading Irish dairy co-operative, exporting to over 70 countries worldwide. • Our product portfolio includes tea and coffee whiteners, milks, dairy creams, cream alternatives, ice creams, thick shakes, milk powders, dessert mixes and butters. • Our high quality and superb tasting dairy products are, in part, the result of the rich, green, nutritious grazing pastures of Ireland. • With a dedicated research and development team, our expertise and technology allow us to produce high quality, functional products. • Pritchitts' technical managers and development chefs work in tandem with the sales teams to support distributors and end users.

Why Us

Lakeland Dairies Food Service is the business division responsible for creating demand for our farmer's dairy produce in both out-of-home occasions and appropriate retail channels across 80 countries. Every purchase of a Lakeland Dairies product directly supports our farmers.
