Retail

Company began in 2004. Branched out from a retail outlet into products in 2009 beginning as a healthy living sprouts business supplying the independent trade. Expanded into premium fresh pesto and granola and began supplying SuperValu through their Food Academy programme. Greatly widened the range of healthy products to include a health focused range of fresh smoothies, hummus, chilled soups, chilled meals, chilled sides and healthier bites. Nationwide supply with SuperValu, Centra and good distribution in foodie and health stores

Why Us

"Eating more veg is one of the kindest things we can do for our planet and at The Happy Pear, we want to create a healthier and happier world.

Our food is delicious, healthy and compostable. At The Happy Pear we use fresh, healthy ingredients and compostable packaging to create amazing food to nourish mind, body and soil."
