Retail

The Atlantic Dawn Group was established over 50 years ago. During that time it has consistently been at the forefront of the pelagic fishing industry.

The company owns and operates a fleet of sophisticated catching vessels, capable of targeting pelagic fish when they are in their prime. On board fish handling and refrigeration systems ensure the catch quality is maintained until it is delivered to one of its processing facilities.

The finished products are then exported globally.

Why Us

The company is vertically integrated, from catch to delivery, in the destination markets.

The Atlantic Dawn team controls each link of the chain to ensure consistently high quality products are delivered in an efficient manner.

Our product range

Sardinella
Sardine
Silver Smelt
Saithe
Capelin
Sprat
