Farmers to Market is Ireland's No.1 Free Range Chicken Supplier. The tradition of the Farmers to Market brand is rooted in the farming heritage of Counties Cavan and Monaghan. Its origins can be traced back to a simple cottage industry where love of the land, respect for livestock and a commitment to providing quality food to the community were the unwritten standards. These core values remain the backbone of the Farmers to Market brand today.

Why Us

Our farming methods are steeped in tradition and passed down through several generations. The unique chicken housing and growing system allows plenty of space to move around, with easy access to green pastures. Our chickens grow slowly and are fed twice daily on a uniquely developed diet which encourages them to forage for food on their lush green pastures. Farmers to Market is Ireland's No.1 Free Range Chicken Supplier.
