We are an artisan Irish whiskey producer making new whiskey traditions for a generation that is challenging the status quo.

Independent of industry shackles and corporate ownership has been liberating, but it has not been easy getting here. Building something great takes mettle, sweat and an ounce of terror. You'll taste the true authenticity of adventure and fear in our whiskey. Live Deliberately is our mantra, and that is what we intend to do at Gortinore Distillers & Co.

Why Us

The Natterjack is the only toad native to Ireland. While all around it are hopping, it walks. It chooses its own course. Thanks to an adventurous spirit and ability to roam, it shows up in the most unlikely of places, not unlike the Irish. Our whiskey is an affectionate tribute to the Natterjack, as our story is also one of endless adventure. This is an extraordinary whiskey for those who do things their own way.

Our product range
