Retail

Over the last half century, Manning's have adapted and grown in response to an evolving market from Ireland in the sixties to a post-2008 market, innovating for another generation.

At various stages throughout its history, Manning's have responded to opportunities by expanding either its expertise, technology or product range. Today, the Manning family employ over 250 people in the Dublin area in long-term sustainable employment in the bakery industry. Ever evolving to meet the latest and next trends in bakery.

Manning's have a policy of investment in people and machinery technology to ensure that the standards set from the outset of the business are adhered to today, whilst also recognising the changing face of the marketplace, so we are always ready to respond to our customers' changing needs.

Why Us

We are proud of our Irish heritage and the positive attributes of being part of Food Ireland, delivering great products with superb Irish ingredients. Central to Manning's Bakery is our New Product Development Philosophy. Manning's respond to consumer needs, while also anticipating future trends. We have taken a classic Portuguese delicacy and married it with the green pastures of the Emerald Isle. Our handcrafted pastry is made with authentic ingredients and we believe that our Irish dairy ingredients complement this Portuguese tradition wonderfully. We've been trained by Portuguese master bakers to ensure we deliver the best quality to our customers.
