### Channels Supplied:

Foodservice  
Retail

One of the pioneers of the Irish craft beer movement, Carlow Brewing was established in 1996. The company has a passion for good beer, channelling its expertise into what is now considered Ireland's leading craft brewery.

Each beer is crafted using classic brewing methods to create the traditional Irish beers styles that have long since been forgotten by many of the larger breweries. We use just four main ingredients; water, malts, hops and yeast to produce the highest quality craft beer range. We hope you share in our passion, taste our beers and enjoy the experience.

It also prides itself in being export ready.

## Why Us

With over 20 years experience in the craft beer sector, the Carlow company is considered one of Ireland's leading craft breweries. It is export ready and a multi award-winner in its field.
