Sustainability

- Sustainability is a key element of East Coast Bakehouse' DNA and is

incorporated into its mission and values.

- The company are committed to ensuring sustainability is high on the agenda, throughout every part of the business.
- East Coast Bakehouse set a target to approve a minimum of three products in sustainable recyclable trays by the end of 2020.
- The company is performing strongly in reducing its packaging use, surpassing its set target, having five trays transitioned from black plastic to clear plastic.
