### Channels Supplied:

Foodservice

Manufacturing

Retail

The Gem product portfolio can be described as 'versatile', with all products in the range packed in a state-of-the-art factory in Ireland. Gem Pack Foods' food selection policy means that only the best ingredients are sourced to ensure customer satisfaction.

The company is perhaps best known for its complete sugar collection, however, Gem's product range varies from dried fruit, gourmet dried fruit, cherries, and peel, to a full collection of almonds and additional nuts.

Gem also offers traditional desserts, cereals, pulses, a range of different rice, and a variety of Sunsweet and Sunmaid products.

Gem's range caters for a wide variety of customer requirements, whether those needs are in retail or foodservice.

## Why Us

This family-owned business has 50 years experience in the baking trade, whether in retail, foodservice, branded, or own label.

Gem pack for many well-known brands within Ireland, the UK and beyond, including Tesco, Musgrave, Aldi, Lidl, Sysco, and more.

Its packaging machines are second to none, helping the company achieve the most cost-efficient end result when packing ingredients.
