monaghanbio.com/wordpress

MBio creates powerful, natural superfood ingredients that help people live healthier lives. We've combined groundbreaking science with nature's bounty to develop a range of revolutionary ingredients all from a single natural source - the mushroom.

Our product range

Whole Mushroom Powder

Vitamin D Mushroom Powder

Sustainability

We make our own compost so that we can stand over the quality. Every part of the mushroom is used – nothing is wasted. Our process is completely natural – with nothing added but nature. Our mushrooms are fully traceable right back to the source.

Our Accreditations

- Origin Green Verified
